I talked about Kabelo Zwane. I knew him since he was 6 years old. He loves the water. And he always plays with the water. At about 9 years old, He started serious training. He never looked back, he kept going with his training. His passion stroke is butterfly. At 10 years old, he broke 50m butterfly U14 South Africa record. He had been selected Central Gauteng Colours and Gauteng Colours for 5 years. And he still present to swim for CGA and Gauteng team.
